Chapter 1 - The beginning

One day of astronomy, while a guy named GLIMAND set out to find the secrets of the universe, A terrible famine struck, well it was not like a 'famine' but had the same effects, except it was sudden, anyway let us see what the famine was - Glimand saw a strange thing which nobody else could see, It was blurred, maybe a black hole. Oh no! It is a black hole: RED ALARM! It sucked Glimand in. I'm gonna call Glimand 'glim' for shorter use.

So glim started shouting 'HELP' even though nobody could hear him in space. But it was kinda strange that he could see a black hole, I mean nobody can see a black hole. Then a voice came "*Gliiiiimmm I see you have returned *QUACK*.*" Why'd the 'quack' come at last? Then it came out, the person who talked was... Wait it's not a person it's a duck! Ducks are the species of the cosmos, of the black holes, the're aliens! Oh by the way glim is still getting spaghettified by the extreme gravity of the black hole.

The duck, who is by the way 'duckacosmholes blackyducaspagg' or ducky for short, helped glim return from the black hole abomination. Glim was surprised just like you.

Um...thanks ducky. Uh uh, not so quick because glim went and returned from the black hole, he duplicated, you see time stopped for him for 0.00000001 seconds till he was pulled out and glim from 0.000000001 seconds from the future was there too, I know.. It's complicated.

Chapter 2 - The great Famine

So because the glim duplicated, his clone's surroundings should be as same as his. But nope that didn't happen

BANG BOOM BEEM ALMOST LIKE THE BIG BANG AND BANGING AROUND TOWN

BANG BANG

CRASH AEROPLANES CRASH LANDING

An aeroplane's captain - "Attention folks this is the end of the world, please free you seatbelts as you won't need it and jump out of the aeroplane. Thank you for choosing your doom"

You're probably wondering what happened, Oh I'll tell you what happened -

Because everything was not the same for glim and glim2(clone). The world was not meant to be like that, That was not written in glim's fate! So the world ended

You're probably thinking that this story is really complicated. It's the GLITCH!

Chapter 3 - The truth

While the world ended, ducky saw it with a smirk that lead to evil laughter -
Muahahahahahahahaha Turns out ducky wanted the world to BURN BURN

Now that's a twist!

Chapter 4 - The end

Ducky just had 1... 2 victims to destroy! Glim and glim2. Ducky punched Glim on his face and Glim went flying. Oh yeah ducky, you want this to be a real battle. Let's do this!

Glim takes a stand and kicks ducky in the stomach, ducky has a counter by holding glim's leg and twisting it. Glim instead turns ducky upside down and punches him again and again and again.

Glim you have angered *duckacosmholes blackyducaspagg!* aaahhh... Bam! Glim went flying in the cosmos, past the stars, past the galaxies, past the black holes. The black hole! A slight smirk formed on glim's face.

Glim went to the black holes to reverse the duplicating of himself and saving the world.

Glim's clone was fighting ducky for distraction. Glim was sucked in the black hole, when he was about to get in there completely, he grabbed the edge of the black hole and pulled himself up with the power of gravity as he had gotten it when ducky helped him out of the black hole in the beginning.

And the duplicating reversed, everything was back to normal.

Except that ducky was sent out into the core of *Rigel because of on mega ultra punch by Glim

The end

*Rigel - A star in the orion constellation
